National Professional Qualification for Leading Literacy

The National Professional Qualifications (NPQs) are a group of widely recognised professional qualifications designed to meet the needs of education leaders in England. NPQs provide extensive training and support for current and aspiring leaders at all levels.

The National Professional Qualification for Leading Literacy (NPQLL) is designed for teachers who have, or aspire to have, responsibilities for leading literacy across a school, year group, key stage or phase.

Individuals working in this type of role often contribute to strategic school development, lead a team of teachers, and are focused on supporting effective teaching of literacy across the school.

They need to have expertise across several specialist areas and have a thorough understanding of the pupils and colleagues they work with, all while maintaining the highest professional conduct as set out in the Teachers' Standards, to ensure staff and pupils can thrive.

The course curriculum aims to develop flexible expertise to support individuals when faced with the range of challenges they will encounter. The NPQLL course curriculum also includes subject-specific, phase-specific and domain-specific materials to enable participants to develop expert teaching practice within their relevant context. The programme is in partnership with the National Literacy Trust, and is designed with expert inputs from our partner schools and settings. This ensures all content is up-to-date, relevant and immediately applicable for all participants.

Our NPQLL programme is in partnership with the National Literacy Trust.

- » **Tutor sessions, led by a Local Lead Trainer** which will provide you with individual feedback and support.
- » **Lots of online evidence and examples** to introduce you to key ideas and demonstrate how you could implement these concepts in your own context.
- » **Regular micro implementation tasks** to reinforce the overall approach to managing improvement and prepare you for the summative assessment.

Leading improvement in the teaching of literacy

All our NPQs begin with an introduction to our approach to capacity development and managing improvement through implementation. This approach is then embedded throughout the duration of the programme.

You will focus on developing mastery of relevant expertise, gaining the knowledge and tools to develop others, and extending your influence across a school, phase or department.
